Sitting in the night train to Zurich (flight cancelled), Reading up on NGS.
Not a GUI. Does not change the overall context though.

>> Mark my words....the airlines have finally woken up and they will invest in ATPCO to make them their tech provider like they wanted us to be but never could get it together. ATPCO is already an airline-sponsored entity. [REDACTED] very soon after the Sabre FLX close. There will be lots of competition, but big with PROS/Vayant on the engine side and ATPCO on the NDC side and Amadeus on all sides.
