Sabre to acquire Farelogix

Dear Sabre customer,

Earlier today, Sabre announced its agreement to acquire Farelogix, expanding our industry-leading airline technology portfolio and further establishing Sabre as the preferred platform at the center of travel. We are excited about this news, the continued evolution of our roadmap and the value our combined innovation will bring to your organization.

Given the dynamic and highly competitive nature of the industry, we know your teams require rapid innovation that drives personalization and differentiation of your products. This investment is another example of Sabre's commitment to deliver the end-to-end NDC-enabled retailing, distribution and fulfillment technology required to accelerate your company's profitability and growth.

Building upon our leading airline portfolio, including the recently launched Sabre Commercial Platform capabilities, Farelogix's GDS- and PSS-agnostic capabilities will help us drive faster innovation in the airline IT space while growing our offer and order management solution set.

Together, Sabre and Farelogix intend to deliver the best of both providers'

innovation, via a combined portfolio, while driving change that prepares the industry for the future. In addition to the leading solutions offered by Farelogix, we look forward to welcoming their talented teams and deep technology expertise to our organization upon closing.

Until close, Sabre and Farelogix will continue to operate as separate businesses. Customers will see no disruption in service or solutions. Once the transaction is finalized, Sabre and Farelogix will outline and define an integration strategy with our customers top of mind.

Your partnership and business is most appreciated. We look forward to providing the best, next generation of software and technology solutions available in the industry. As always, your Sabre account representatives will be available for questions and continued collaboration. Please distribute this information within your organization as appropriate.

All the best,

Sean Menke
President and CEO, Sabre

Sabre 3150 Sabre Dr. Southlake, Texas
