**01/30/2018 Text Messages Between Vinit Doshi and Chris Boyle**

Bates Number	Sender	Time	Message
SABR-001853965	Vinit Doshi	9:02 AM	His valuation expectations are going to be crazy again. I bet he is thinking we can get incremental 50 cents per GDS booking.
SABR-001853966	Chris Boyle	9:06 AM	Partly why I said that we see commercial challenges to leaving current GDS model. But ultimately I think we all have to believe that model changes...I think it's not 50 cents. But maybe %value switch over time that starts by matching current booking fees but aligns with what and how airline sells.
SABR-001853967	Vinit Doshi	9:07 AM	I think two different models: 1) if you stay with what we have today, what's the incremental value and 2) if you drop the booking fee/incentive model, what does it look like?
SABR-001853968	Chris Boyle	11:57 AM	Big pic value thing that came thru from board member is their thinking that there will be incremental booking fee for GDS that has airline offers, etc. I made argument to question that.
SABR-001853969	Vinit Doshi	11:57 AM	Jim told us last time that he thinks that incremental value is 50 cents/booking
